PROFILE

I'm a Computer Science Masters graduate, with experience in the different fields of Software Development. My main strength is Java and Javascript programming languages and their technologies including Spring & Springboot different modules. I also have professional experience with Laravel framework. I have earned the first rank in the University of Pécs for Computer Science graduates in 2020. I love learning new technologies and skills as well as improving my current skills and staying up to date with the latest technologies.
